The strength, permanence and beauty of stone are benchmark qualities behind many architectural designs, whether contemporary or traditional; commercial, residential or institutional. Manufactured to the same standards of quality and beauty of all Glen-Gery products, our Landmark Stone Collection is an essential ingredient in successful applications of practically limitless variety.

Its authenticity in hue and surface makes it a highly versatile selection, one that enables architects and designers to reach beyond limitations otherwise imposed by constraints of budget and material availability.

Discover
the lasting
beauty of
stone with
remarkable
design
versatility.

Available in a range of stunning colors and profiles, Glen-Gery's Landmark Stone Collection is a truly comprehensive series. Its aesthetic potential is displayed in Landmark Stone Collection structures from coast to coast, and in the realization of designs that display the look and character of natural stone.

The lasting charm of stone imparts an aura of security and permanence that's as appropriate in educational and medical buildings as it is in first-class homes and commercial structures. The Landmark Stone Collection extends that special appeal to the widest possible range of architectural designs.

The Landmark Stone Collection is available through 250 distributors across three dozen states plus Canada. Visit our website at glengery.com or call our plant at 859.235.9636 to find a distributor closest to you.

IMPORTANT FEATURES

- The Landmark Stone Collection is available in dozens of versatile, visually appealing colors and profiles.
- Made with high quality materials, the Landmark Stone Collection delivers a truly lasting architectural solution, supported by a 50-year warranty.
- The Landmark Stone Collection meets or exceeds code requirements as verified by Uniform Evaluation Service.
- Unlike some natural stone varieties, the manufactured Landmark Stone Collection is *always* available.
- Where budgets preclude natural stone, the Landmark Stone Collection can be the ideal choice.
- A full selection of accessories compliments and completes the design.
- Crafted to high environmental standards, can contribute to LEED Certification.

In residential applications, the distinctive look of this Collection is permanent and beautiful.

As diverse and adaptable as natural alternatives, the Landmark Stone Collection is suited to the widest possible variety of residential designs. It responds perfectly to the intentions and requirements of virtually any project: rugged and

rustic (as in the Prestige Stackstone shown below), dignified and traditional, or suffused with a domesticated charm. For all its beauty, this product is made to stand up to the rigors of residential use, now and for many years to come.

Custom Color • LIMESTONE
with Glen-Gery Color Mortar

Color Mortar adds tremendous versatility to the design palette. It's a beautiful alternative for Ledgestone, Stackstone and Glen Ridge installations which are often finished without mortar, and an exciting enhancement to other stone varieties that would otherwise employ traditional gray mortar.

*Contact our plant to learn more about custom colors and blends.

The transformative face of stone for homes.

Suitable for many construction budgets, the Landmark Stone Collection grants designers the ability to provide the transforming elegance and permanence of stone facing in a wide range of residential projects.

For residential plans drawing on traditional architectural qualities, the Landmark Stone Collection is an ideal building resource.

Ashford • LEDGESTONE
with mortar

Blue Ridge • LEDGESTONE

Our Landmark Stone Collection is especially well suited for use in combination with Glen-Gery Brick and other building materials. Whether our stone constitutes the home's dominant design element, or it is used as a highlight and accent, the results in project after project speak to its highly versatile capabilities.

Buckingham • FIELDSTONE

For color and profile availability, consult your Glen-Gery Landmark Stone representative. Due to printing limitations, color may vary from the actual stone. The number of stones displayed does not allow a complete representation of all sizes, shapes and colors for individual products.

† Part of our "Select Series" which uses enhanced coloration techniques and mold technology, second to none in the industry.

To view the measurements of each profile turn to page 24.

Bring your interior space alive with stone.

The use of masonry on interior walls enriches the overall look of the space whether it be an accent wall, fire place, wine cellar or bar surround incorporated into the design of restaurant's décor. When designing an interior with stone the possibilities are endless.

In handsome rusticity or accents of utmost sophistication, in dramatic arch structures or striking fireplace surrounds, the appeal of real stone in a range of residential spaces is unique. No other building material projects quite the same combination of rugged strength, natural beauty and domestic calm.

Without a word spoken, a company's building expresses volumes about its character and aspirations. When businesses choose Glen-Gery's Landmark Stone Collection, they affirm their own identities in the most positive way. In corporate centers, medical complexes, retail locations and countless other venues, our appealing stone creates an encompassing sense of authenticity and strength.

Ashford • STACKSTONE

Thickness: 3/4" to 1-1/2"

10 square feet per box
Corners: 7 linear feet per box

Rectangular, sand face and smooth face

Select Fit Panels are designed to save time and money on the installation of your next stone veneer project. The panels are engineered for a precise fit and resemble the elegant look of a tightly laid stacked stone installation. Select Fit is currently available in one new color: Grigio.

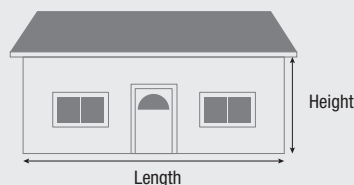

Grigio
SELECT FIT

NOTE: Coverage based on installation with half inch joints for all profiles except Glen Ridge, Ledgestone, Stackstone and Select Fit Panels.

Estimating guide.

The following computations are based on a single surface coverage. Please make certain all surfaces are computed.
For additional installation information please visit our website at glengery.com

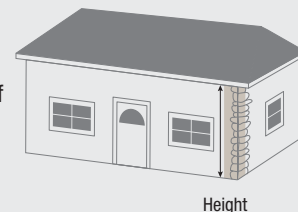

STEP 1: Determine job square feet
(Length x Height = square feet)

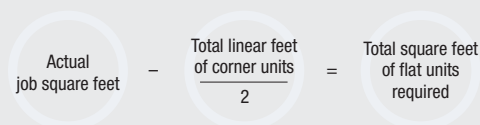

STEP 2: Determine total sq. ft. of doors, windows and other open areas.

STEP 3: Determine linear feet of corner units required.

STEP 4: Determine total square feet of flat units required.

Glen-Gery Landmark Stone Collection typical installation details.

Glen-Gery's Landmark Stone Collection meets or exceeds code requirements as verified by IAPMO Evaluation Service (Report IAPMO ER# 0377). This report is available online.

Note: Local building codes may vary; always check local building codes for details on the use of manufactured veneer products.

Independent testing confirms that the Glen-Gery Landmark Stone Collection manufactured stone veneer products meet or exceed the following test requirements as specified in ICC-ES AC51, Acceptance Criteria for Precast Stone Veneer:

Raw Materials

Sand	ASTM C 33
Portland Cement	ASTM C 150
Lightweight Aggregate	ASTM C 331

Product Testing

Compressive Strength	ASTM C 39 (Specimens prepared per ASTM C 192)	>1800 psi @ 28 days
Freeze/Thaw (Durability)	ASTM C 67	<3% weight loss
Flexural Strength	ASTM C 348	As reported
Bond Strength	ASTM C 482	>50 psi
Density (Unit Weight)	ASTM C 567	<15 lbs./square foot
Absorption	Section 3.1.4 and 4.6 of ICC-ES (Acceptance Criteria 51) <18%	
Thermal Properties	ASTM C 518 Burn Characteristics – ASTM E84 Adherence to the 2010 Florida Building Code for Residential and Building	

The Glen-Gery Landmark Stone Collection 50-year warranty.

Buckingham® LEDGESTONE

All veneer stone products manufactured in Glen-Gery's Landmark Stone Collection are warranted to be free from manufacturing defects for a period of fifty (50) years when used on structures conforming to local building codes and installed in accordance with the manufacturer's instructions. This warranty is limited to the original purchaser and is not transferable. Warranty coverage is limited to the replacement or repair of defective materials and does not cover any labor or other costs incurred for installation, removal or replacement of defective or replacement materials.

This warranty only covers manufacturing defects and specifically excludes damage due to:

1. Settlement or other movement of the building, wall or other structure to which the material is applied;
2. Damage due to contact with chemicals or paint;
3. Discoloration due to airborne contaminants, staining or oxidation;
4. Improper installation.

Buckingham® LEDGESTONE

A valuable digital tool and design resource is at your disposal.

V

ersatile, responsive and easy to use, Glen-Gery's *Picture Perfect* design tool is an ideal way to visualize the Landmark Stone Collection in the best colors, forms, surfaces and effects for your project. This program allows you to select any combination on your computer screen, and instantly view it as it would appear on your house.

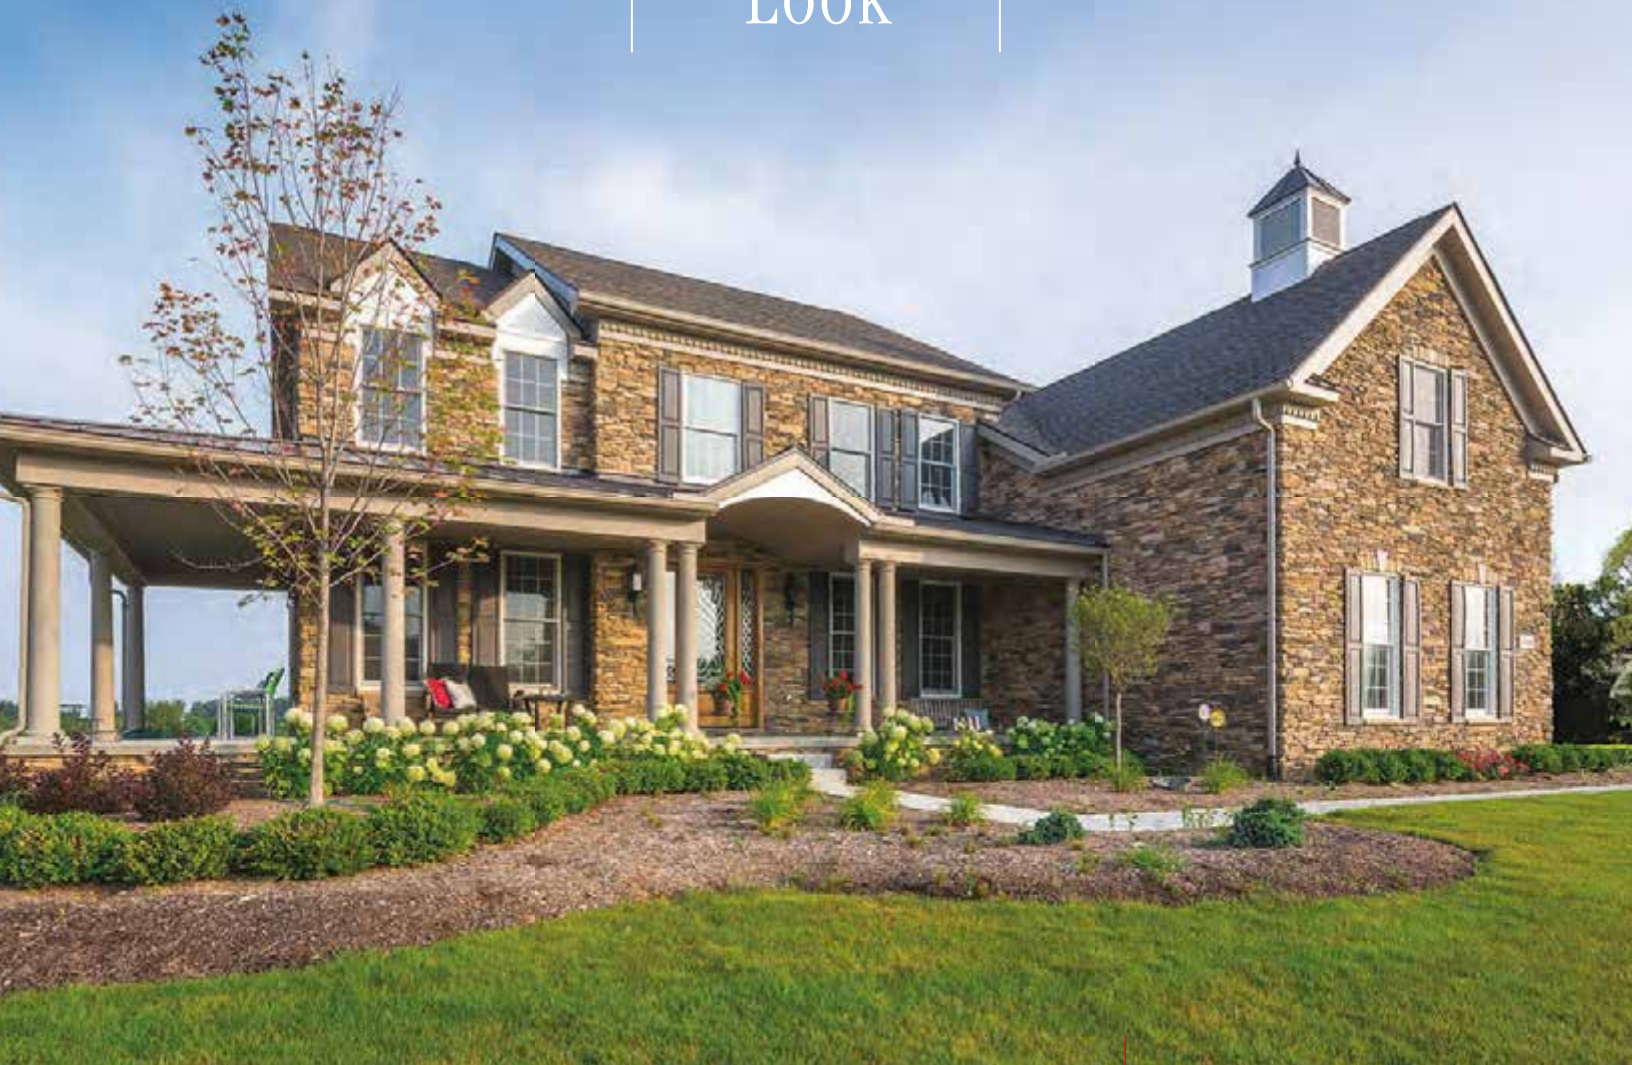

Three versions of this great design resource are available. With our basic tool, browse galleries of classic preloaded residential and commercial images, altering them to suit your ideas. A second version, *Picture Perfect DIY*, enables you to upload a picture of any structure and display it in the Landmark Stone Collection, modifying it to achieve just the effect you prefer. Or, for a small fee, choose our *Picture Perfect Pro* service. Our design professionals will prepare and mask the exact image you create.

Not only can you experience the visual appeal and power of the Landmark Stone Collection as applied to virtually any building, you can also change the colors of trim elements like shutters and roofing. And you can switch to any other stone and trim combinations with ease. *Picture Perfect* lets you actually see the designs you've imagined in Glen-Gery's Landmark Stone Collection.
